

Art Prompts

1. Is there a place you find particularly spooky? Pick an art medium and depict it in 2D (or 3D if you are particularly ambitious!)
2. If money, budget, and time were not a concern, what kind of Halloween costume would you want? Design it just for fun (or as a future goal!)
3. Halloween is a time for make up and face paint! Experiment with it on your face, a friend's, or on paper. Do you give yourself a sharp look, a special effects makeup look, or use some of that expired make up on paper to see what kind of art you can make with a new medium!
4. Pick a time period and study their clothing & hairstyles. When you've found something you liked and/or found interesting, use it to design a ghost character from that time period! Bonus: include some background information about their story.
5. What is something that scares you? Make a piece of art inspired by that fear that turns it into something cute and/or funny!
